

Backup-as-a-Service 4 week PoC

Powered by  Microsoft Azure

“Simple, secure offsite backups”

- Backup over your existing Internet connection
- Pay only for the storage consumed by your backups
- No dedicated hardware or network required

Gain peace of mind knowing that your data is backed up offsite and accessible from wherever an Internet connection is available.

WHAT is Nexio Backup-as-a-Service PoC?

Backup-as-a-Service is a simple and secure mechanism to enable offsite backups that are resilient to theft and electricity supply interruptions. Use this PoC to get you started.

Nexio Backup-as-a-Service is a backup solution built upon Microsoft technologies that will fulfil the majority of today’s backup requirements. Priced as a service, delivered as a service!!

- Has your backup solution reached end of life?
- Struggling to maintain the backup infrastructure or employ the skills to operate it?
- Looking to for a secure storage location that is resilient to electricity supply interruptions and theft? Possibly even out of country?

Nexio Backup-as-a-Service solves these challenges with competitively priced solution.
