Azure AI-in-a-Day workshop

Our 1-day workshop helps learn how to build Machine Learning models, bots, and AI-infused apps. The workshop offers a deeper dive into the capabilities of Azure AI and what one can achieve through Azure AI services, including Azure Machine Learning, Azure Cognitive Services, Azure Search, and others.

Topics Include:

- Deriving quick insights from unstructured data with Knowledge Mining and Cognitive Services
- Building models easily, scaling solutions flexibly, and deploying applications from anywhere
- DevOps for Machine Learning
- Governance + “Why Ops”
- Quickly building comprehensive Bot solutions with the Virtual Assistant Solution Accelerator
