

3-DAY WORKSHOP INVENTORY MANAGEMENT

A Dynamic Approach to Inventory Management Health

The 3-Day Workshop for Inventory Management

supports Dynamics 365 Business Central and NAV users who are Distributors, Manufacturers, or Retail entities.

Are you experiencing inventory management pain-points? Are you in charge of inventory management or procurement activities? Do you need additional guidance from an expert with Business Central experience?

- ◆ Stockouts and/or Overstocks
- ◆ Lost or Misplaced Inventory
- ◆ High Inventory Write-offs
- ◆ Staff Doesn't Trust Stock Levels
- ◆ Growing Business / Shrinking Warehouse
- ◆ And more!

Specializing in Supply Chain Operations

Manufacturing * Distribution * Retail

Who is Beacon Grace?

Beacon Grace LLC, and its inventory management specialists, have worked on a wide variety of projects, assessments, and consulting assignments to help supply chain organizations better manage inventory, their operations, and their systematic tools. Our goal is to help your organizations improve and grow.

What to expect?

Expect a holistic and systematic approach to conquering your biggest inventory management pain-points. Problem solving may include better system utilization, but it also may include operational and procedural changes. Expect a workshop that is dynamically customized to address your biggest concerns. Expect some solutions to be solved as a process that extends beyond this designated workshop.
