ABOUT VANA

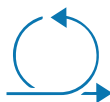

In today's rapidly changing and unpredictable environment, government leaders need to address an evolving list of mission challenges. Our technical and process knowledge coupled with its broad range of service offerings and solutions address technology challenges in a creative, efficient, and cost-effective manner. Vana helps customers adopt systems that enable the digital transformation needed for successful execution of mission objectives.

COMMITMENT TO QUALITY AND COMPETITIVE DIFFERENTIATORS

Business Status

Vana is an 8(a) SBA certified organization and third-party certified for WOSB and EDWOSB.

Agile Development Methodology

Vana employs Agile development methodology in both its DevOps processes and to aid government customers in managing their project portfolios.

ISO 9001:2015 Certified

ISO 9001:2015 Quality Management System certification. Vana's culture of continuous improvement, and keen focus on customers, ensures consistent, high quality services and products.

Clearance and Data Protection

Top Secret Facility Clearance with Secret, Top Secret, TS/SCI cleared employees.

Diverse Partnerships

Partnership with large, small and technology companies to bring integrated, creative, and high-quality solutions to our customers.

Accounting Systems and Compliance

Vanas' Accounting System has the necessary controls required to ensure our system is in compliance with all regulatory and customer-related requirements. Our system is 100% compliant with Defense Contract Audit Agency (DCAA) requirements.

NIST Compliance

Vana has successfully implemented security requirement controls in order to be compliant with handling controlled unclassified information defined in the government standard NIST 800-171.

Cross-Market Experience

Brings to bear the best of Commercial IT solutions and services to Government environments.
