SMASHED CRAB STUDIO

Business Process Analysis - 1 Day Workshop

Our 1 Day Workshop will give you an insight into your business' paper and digital processes to identify where improvements can be made through leveraging web apps and innovating with Azure

Overview

With a focus on digital transformation and web apps hosted within Azure, we look at where your business can improve its processes. Save staffing costs and take back control over your spending and audit trails.

What we identify

- Bottlenecks in process
- Potential security risks
- GDPR concerns
- Where improvements through digital transformation can be made
- What is currently hosted on-premise and could benefit from migration to Azure

Outcomes

By the end of the day you will have the following knowledge:

- Action points for quick digital transformation wins
- Understanding how Azure can help your business run smoother and faster, without compromising on scalability and security.
- How bespoke software can save you time and money
