

# App Innovation Assessment

ACCELERATE YOUR NEXT APP INNOVATION

**The App Innovation Assessment sets the foundation for how you can drive value from Azure App Foundry, taking the risk out of innovation, delivering faster time to value in this rapidly evolving and innovating digital economy.**

## FREE TWO-DAY APP IDEATION CONSULTANCY

Our team of experts will guide you on a full-day workshop to produce a high-level understanding of scope, solution, roadmap and indicative investment to upgrade or create a new solution in Microsoft Azure. The result will be a better understanding of business outcomes, user journey and technology approach for the solution. We then write up a report and present our findings and recommendations to you.

The outcome of this assessment provides a high-level description of the solution that includes a roadmap and indicative investment, empowering a decision to move forward.

*"We are very excited at the opportunities Azure App Foundry will provide customers to unlock cloud innovation."* Sarah Bowden – One Commercial Partner Director, Microsoft.

Contact us today for a demonstration and discussion of how our accelerator can transform the productivity of your business.

## FULL DAY WORKSHOP WILL INCLUDE:

- **Art of the possible** – understand what other organisations are achieving when leveraging our innovative Azure App Foundry development platform
- **Solution Discovery** – explore an existing or new solution requiring innovation in the areas of business outcome, user journey and technical considerations
- **Platform** – an initial fit gap analysis of the solution against Azure App Foundry or other relevant Microsoft technologies

## IDEATE

Conceive | Dream | Imagine  
*"Think beyond the norm"*

## APP INNOVATION ASSESSMENT

The Assessment	The Outcome
<p>Work with our team of experts to assess a new or existing solution, to understand the solution summary, roadmap and an indicative investment for implementation. We will take you through a full day of consulting and discovery followed by a two-hour presentation of findings and recommendations supporting a decision to move forward.</p>	<p>The outcome of this assessment provides a high-level description of the solution that includes a roadmap and indicative investment, empowering your decision to move forward. As a next step, we recommend our App Proof of Concept engagement to take the solution idea into an initial implementation.</p>
Day of Consultation	Ideation Assessment Report
<p>Your first day will encompass an ideation workshop focused on these three key areas:</p> <ul style="list-style-type: none"> <li>• <b>Art of the possible</b> – understand what other organisations are achieving when leveraging our innovative Azure App Foundry development platform</li> <li>• <b>Solution discovery</b> – explore an existing or new solution requiring innovation in the areas of business outcome, user journey and technical considerations</li> <li>• <b>Technology</b> – initial fit gap analysis of the solution against Azure App Foundry or other relevant Microsoft technologies</li> </ul>	<p>Our team will capture the essence of the full-day workshop in our Ideation Assessment Report.</p> <p>Findings will be recorded and presented back to your leadership team via a two-hour presentation and discussion of recommendations.</p> <p><b>The Ideation Assessment report will include:</b></p> <ul style="list-style-type: none"> <li>• Summary, Business Outcomes, User Journey, and Solution Overview</li> <li>• High-Level Roadmap, Implementation Approach, Indicative Investment, Wrap-Up and Next Steps</li> </ul>
