Migrate Dynamics GP to Dynamics 365 Business Central

Challenges

Companies face rising costs of keeping their Dynamics GP system including server maintenance, annual licensing, and system upgrades.

- IT department is short on resources – can't support specialized applications
- On-premise server costs continue to rise
- Current system is outdated and upgrade to new hardware/software would be costly

Ideal Solution

Migrating Dynamics GP to Dynamics 365 Business Central. Outsource support, maintenance, and upgrades for one low monthly fee.

- Missing out on functionality released in Dynamics 365 Business Central
- IT department does not have the specialized knowledge required to support an ERP application

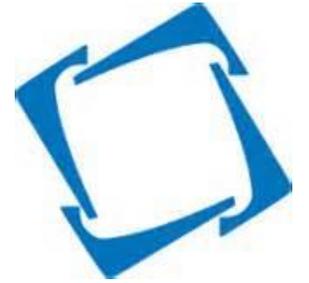

Desired Outcomes

A more secure and up-to-date ERP environment that doesn't require server maintenance and other IT support. All Business Central upgrades are included in monthly fee.

- Lower total cost of ownership
- Flexible user licensing
- No IT support required

Migrate Dynamics GP to the Microsoft Azure Cloud with Syvantis Technologies

Lower licensing costs and get better system integration by migrating Dynamics GP to Dynamics 365 Business Central

Scalability

- Keep costs down by adding or removing licenses on a month to month basis
- Add modules and additional functionality at your convenience
- Scale up or down depending on business seasonality

Overarching Security

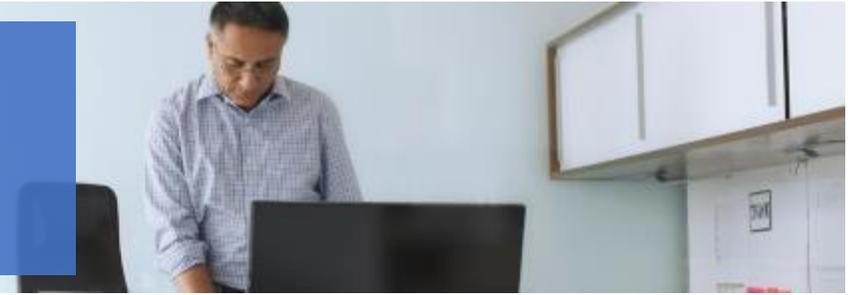

- State-of-the-art datacenter security
- Industry-standard data encryption protocols
- Threat protection services

Ease of Deployment

- Get up and running in 8-12 weeks
- Limit downtime by going live over the weekend
- Minimal IT involvement required

"We closed our first month with no real issues and kept staff stress to a minimum."

Migrate Dynamics GP to Dynamics 365 Business Central with Syvantis Technologies + the Microsoft Azure Cloud

Reduce costs and increase productivity with a rapid implementation of Dynamics 365 Business Central by Syvantis Technologies with the power of the Microsoft Azure Cloud. Dynamics 365 Business Central on Azure guarantees 99.95% system uptime with no associated maintenance cost.

Solution Alignment

Cloud Protection

Dynamics 365 Business Central is secure on Azure thanks to industry-standard data encryption protocols and threat protection services.

Advanced Accessibility

Access Dynamics 365 Business Central with full functionality through any web browser on any device.

Enhanced Scalability

Leverage the scalability of the Microsoft Azure Cloud with Increased capacity for database storage and seasonal needs.
