# VERSION 1

## AnalyticsStart: Oracle Data Warehouse to Azure Synapse

### Rapidly Assess, Understand and Plan your Migration from Oracle Data Warehouse to Azure Synapse

Start doing more with your data by using an accelerated discovery and technical assessment to understand your existing Oracle Data Warehouse solution and develop a strategy and plan to migrate to the Azure Synapse Analytics platform.

ORACLE →

Version 1 work with customers in a variety of sectors to implement new data warehouse solutions on Azure Synapse and to migrate existing solutions from on-premise to the cloud. Our combined experience as a Microsoft and Oracle partner means we have extensive knowledge of both platforms, which we leverage to help customers identify risk and reduce complexity in the migration. This expertise combined with a robust delivery roadmap accelerates your Data Estate Modernisation journey.

| Duration | Type of Engagement | Price |

## Benefits

Identify and Manage Migration Risks

Understand Cost and Complexity

Developed from our Practical Expertise

Plan for Success

Scale and Automate with New Technologies

# The assessment consists of a combination of workshops and code/documentation reviews delivered in 3 stages:

## Days 1-5
### Database Assessment

- Azure Synapse Data Distribution Recommendations
- Database consolidation opportunities
- Data Type Translations
- Data Migration Plan
- Index optimisations
- PL/SQL Translations Requirements
- Performance Tuning Recommendations

## Days 6-10
### ETL Review

- Data Movement patterns & data volumes
- ETL Tools in use, underlying infrastructure & support status
- ETL Implementation approach (transformations applied in PL/SQL or within the ETL Tool)
- ETL Schedule & Sequencing
- Migration Strategy for ETL Solution
- Data Quality steps

## Days 11-15
### BI Platform Audit

- BI Tools in use, infrastructure sizing, support status
- BI Tool upgrade options
- Migration Roadmap
- Semantic Models & Report Volumes
- Target Audience & user communities
- Usage patterns

## Our customer success stories

**MAJOR EXAMINATIONS BOARD**

Delivered an on-premise Oracle Platform an Oracle DW, recognising the need to migrate and modernise using Azure.

**INNOVATIVE PUBLIC HEALTH-CARE SERVICE**

Migrated an on-premises health service analytics platform to Microsoft Azure PaaS services.

**LEADING LIFE AND PENSIONS COMPANY**

Implemented an IFRS 17 financial consolidate and reporting solution using the Azure Data Platform.
