# MAQ Software

MAQ Software delivers innovative software solutions to Fortune 500 companies. Using the latest agile engineering techniques in a focused and disciplined manner, we accelerate software initiatives that enable our customers to transform their industries.

MAQ Software serves customers in multiple industries including technology, retail, energy, and healthcare. We focus on Data Analytics, Cloud Capabilities and Artificial Intelligence (AI) at our three state-of-the-art engineering centers located in Washington state and India.

Our company is closely aligned with Microsoft Corporation. We have been a Microsoft Preferred Supplier for over 18 years. We hold Gold competencies in Data Analytics, Data Platform, Application Development, and Collaboration and Content.

**Azure Expertise**

We are a Microsoft Preferred Supplier for Data Platform and Cloud migration. We have helped our esteemed clients shift data workloads from on-premise systems to an Azure cloud technology stack. Below are a few accomplishments:

- Delivered and supported over 50 Azure cloud implementations for Fortune 500 companies
- Created robust Azure-based automation tools and utilities for efficient business operations
- Exhibited expertise and excellence of projects working with technologies like Azure Data Factory, Azure Databricks, Power Platform, and Azure Synapse.
- We count on 300+ Azure engineers with certified Azure competencies

**Other competencies**

We work with a wide range of Microsoft technologies. Our experience has helped us tailor our processes and methodology to meet the needs of Microsoft groups effectively. Our clients choose to work with us because we exhibit time and cost-effective solutions with supreme quality.
