ENABLE YOUR TEAM WITH AN **AGILE IT PARTNER**

IX Solutions is a boutique IT consulting firm that provides adaptable technology solutions to support your employees and drive your business success.

IX Solutions takes a 360° approach to designing, implementing and supporting your IT strategy. We're razor focused on providing responsive, non-disruptive and sustainable IT services aligned to your business goals.

Your IT shouldn't be complicated. Starting with an assessment of your current state, business needs and long-term goals, our experienced team of architects will design, develop and deploy an integrated IT ecosystem that fully supports your business. Backed by partnerships with leading technology vendors, we use best-of-breed solutions to protect your data, support your network and provide a seamless end-user experience.

CLOUD SERVICES
Leverage cloud-based productivity and security solutions, IaaS, PaaS, SaaS offerings and more with Office 365 and Azure.

DATACENTRE TECHNOLOGY
Deploy server, storage, networking and virtualization solutions that are designed to meet the needs of your business.

NETWORKING
Easily manage and support your network with robust, reliable networking solutions from partners like Palo Alto and Cisco.

DEVICE MANAGEMENT
Proactively maintain PCs, gain better control over mobile devices and enable a secure bring-your-own-device (BYOD) approach.

DATA PROTECTION
Protect your valuable data with proactive backup solutions in case of hardware failure, accidental deletion or malicious software attacks.

DISASTER RECOVERY
Plan ahead for unexpected events like fires, floods or business closures so you always have access to critical systems and information.

ENDPOINT PROTECTION
Prevent virus and malware infections using next-generation AI-enhanced anti-malware technologies that monitor application behaviour.

REMOTE ACCESS
Enable your team to work anywhere, anytime with quick access to data and information where and when its needed.

Azure   Office 365   Microsoft Gold Partner   Intune   Microsoft System Center
