## Why Citrix Virtual Apps and Desktops on Microsoft Azure?

- One place to manage any infrastructure

- Rapidly deploy and secure Windows 10 Enterprise virtual desktops on Azure

- Provide secure, ubiquitous access from any device

- Rely on a growing network of Microsoft-managed datacenters, supported by Microsoft's $15 billion (USD) infrastructure investment in Azure

- Provide Global Access to mission critical applications regardless of visualization and data requirements from around the globe without investing in global data center infrastructure

- Pay for only what you use and need. Scale for high-peak periods

- Keep critical business information off the endpoint, secured in the Azure cloud

## Why Coretek?

- Certified Microsoft Azure Expert MSP: Fewer than 40 worldwide

- 2018 Citrix Global Innovation Award Winner

- Proven success implementing Citrix Xen-App on Microsoft Azure since 2014

- Over 250,000 Virtual Desktops Deployed

- Certified Architects

- In-Depth Migration expertise

- Flexible Build and Transfer Knowledge to client or ongoing Managed Service

- 100% of Production Pilots deployed to Production

- PROJECT SUCCESS, NO EXCEPTIONS!
