

GETTING STARTED WITH ARTIFICIAL INTELLIGENCE AND BOTS

Team with Neudesic to explore, identify and prioritize the best places to begin with bots for driving business value. We partner with clients to demonstrate how to apply AI bot technologies to solve business problems and in building and implementing bots for immediate value.

Neudesic helps clients develop bots to advance their digital business evolution; including, but not limited to ...

- Customer Service and Sales Support
- Business Operations Automation
- Internal Knowledge Management
- Internal Employee Engagement
- Compliance and Controllershship
- Line of Business Decision Making
- Student Engagement FAQs
- Social Media Sentiment Analysis
- Internal Social Bots
- Automated Document Management

Neudesic Bot engagements reach across all industries, with specific strengths in...

- Finance
- Healthcare and Pharmaceuticals
- Hospitality and Gaming
- Legal and Professional Services
- Transportation and Logistics
- Utilities

AI Focused Design Sprint: *Explore, identify and prioritize the best places to begin with bots for driving business value **

Facilitated sessions focus on education and identifying value driven use cases for AI bots. At the end, you will have at least one demonstrable solution concept that can be used to gain shared understanding and executive buy-in.

AI Proof of Value Sprints: *Demonstrate how applying AI bot technologies will solve business problems **

Verify and provide evidence how a bot use case concept will produce the desired business objectives and results. Our Proof of Value Sprints focus on quickly creating working code using your data and use cases.

AI Bot Implementations: *Built out a bot and put it to use to support a business value proposition **

Put AI plans into action via a world class bot to enhance your customer or employee experiences and further evolve your digital business. Following agile methodologies we right-size this engagement to accelerate the time to value.

* Azure consumption is driven across all implementations of cloud-based AI and cognitive services.

Neudesic locations include Irvine, Phoenix, Dallas, Houston, Denver, Chicago, Philadelphia, New York, Atlanta, Portland and Seattle. **Contact us to learn more:** www.neudesic.com (303) 248-8321.
