ARINCO

Are you ready for the intelligent future?

Future-proof your IT with the Intelligent Cloud

With the rapid advent of modern IT, cloud platforms and ever evolving artificial intelligence capabilities, it is critical to ensure that your business is ready to benefit from it all.

Readiness Assessment for Intelligent Cloud

As are all things in IT, moving to an intelligent future is a journey. Knowing where you are on this journey, what you are aiming for, and identifying where your gaps are is critical to success. At Arinco we bring our experience to fast track this process by working with your teams to assess, identify and advise on what needs to be done to fully unlock the potential of the Intelligent Cloud

Why customers use the readiness assessment

Fast track your uptake of intelligent services by:

- Defining the platforms and capabilities your business will benefit most from

- Assessing your current state and identifying your gaps

- Building a plan and roadmap to achieve a modern, intelligent IT

Understand the journey

- See the benefits of the Intelligent Cloud

- See benefits of Intelligent Apps

- How does intelligence benefit your business

Build a clear view of what modern, intelligent IT means for your business

Assess your readiness

- Measure your IT Maturity: ClickOps → DevOps → AIOps

- Measure your IT Platforms: Classic → Modern → Intelligent

- Articulate your gaps and areas of improvement

Assess your internal capabilities and identify where you can improve

Roadmap to success

- Plan your short-term, medium-term and long-term initiatives

- Identify what technologies and processes to introduce

- Identify where your business changes are required

Gain a clear roadmap, timeline and high level view on how to amplify your organization with intelligence

Intelligence, whether it be Artificial, Augmented or Human - it is the core to the success of any business.
