

AZURE TURNKEY PARTNER

As privileged advisor, we work with customers to accelerate cloud adoption. We develop cloud strategy roadmaps, assess culture and environments in terms of cloud readiness applications, design, build, migrate, manage and optimize cloud platforms to facilitate our customers' journey to digital transformation.

CLIENT ROAD MAP

FX Innovation is an expert in collaborating with clients to build cross-departmental roadmaps to support business transformation across departments. Our areas of focus include:

- Rapidly assessing the customer environment through the use of FX accelerators
- Providing platform management
- Improving employee, user and customer experience with our human centric transformation through our Service Design approach
- Reducing cyber security risk exposure by integrating security in every step of the process

DEPLOYMENT EXPERTISE

We tailor multidisciplinary teams to ensure deployment success and to maximize client adoption and satisfaction.

- Azure Cloud Specialists
- Azure Cloud Architects
- Process Specialists
- Service Design
- Project Managers
- Integration Specialists
- Quality Assurance
