

Migrate complex websites and eCommerce sites to Azure

More and more marketing teams want to move their sites to Azure and replace their on-prem data center solution and legacy hosting environments.

There are many pitfalls and failed deployments in Azure which require careful planning and ongoing management to ensure an effective return.

Atmosera Website/eCommerce Managed Azure Service

Atmosera has developed a fast migration process for deployment in Azure which delivers a purpose-built solution to address the specific needs of complex websites and e-commerce sites.

Benefit from an environment which has been built to address specific needs and allows to accelerate the pace of innovation without breaking production sites.

The solution will result in:

- A right-sized environment with no surprises
- Expert migration and ongoing management
- Automated release management and unit testing to ensure the site does not break with an update

Easily migrate existing environments

- Understand options and tradeoffs
- Minimize re-development
- Take into consideration future needs
- Benefit from multiple roadmap options

Leverage experts and best practices

- Rely on a team with over 20 years experience architecting solutions
- Work with an early adopter of CSP and a fast growing Gold provider
- Get live support 24x7x365 from experts who monitor your site and take corrective actions

Built-in release management

- Built for Azure using leading products including Chef and Bitbucket
- Develop new features and capabilities faster and ensure they won't break the site
- Reduce manual quality control
- Evolve test coverage with on-going consultative process

Implement immediately

Stay operational

Enable agile or DevOps practices

“Atmosera provided the expertise to properly assess our needs, deploy the Azure environments and now operates them 24x7 enabling our team to focus on our business without worrying about our underlying systems.”

- David McCurley, Marketing, ATLANCO

How Atmosera's Website/E-Commerce Managed Azure Service works, to achieve business benefits

Get up and running fast

- Architected for flawless implementation to deliver immediate value.
- Built-in release management automation enables fast deployment of new content and features.

Stay operational 24x7x365

- Designed to be implemented flawlessly and deliver immediate value.
- Around the clock live support with real-time advanced monitoring and remediation workflows to keep Azure running at its best.

Backed by an SLA with financial guarantees

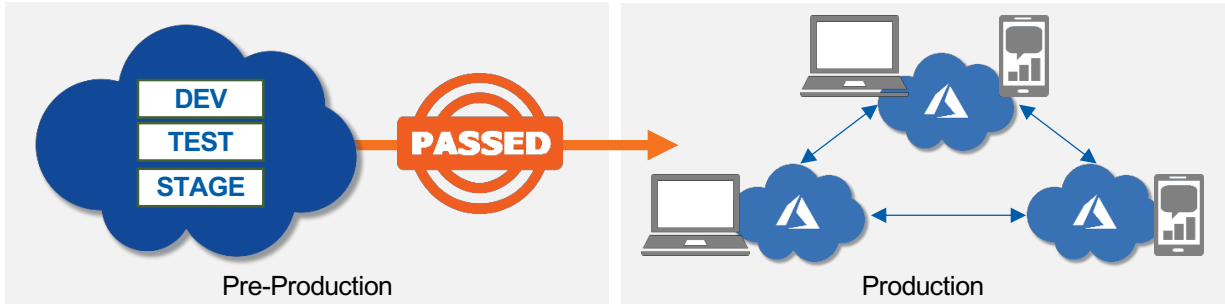

- Includes a clear Service Level Agreement (SLA).
- Easy to understand financial guarantees in the unlikely event of any service disruptions.

Our promise to you

Receive a comprehensive plan which delivers the confidence needed to make the decision to migrate a website or e-commerce site to Azure.

Free Assessment to get started

- Prioritize business needs
