

ADvantage SKETCH

Key

Use Cases

Industry – All

Key Pains –

- Long Data Migration Cycle
- Recurring Pipeline Creation
- No Factory Model for Large Volume Data Transformation
- Considerable amount of Data Programming
- Lack of Data Governance

Our

Solution

- Moderized Data Operations
 - Data Capture
 - Data Curate
 - Data Preparation
 - Data Transformation
 - Data Dispath
- Overarching Utilities
 - Security
 - Lineage
 - Virtualization
 - Governance

Key

Benefits

- Configuration over Coding yet Customization-ready
- Elastic Data Processing Capability for Cloud
- Prebuilt Pipelines for Data Transformation
- Connected DevOps

Azure

Consumption

- Azure Data Fabric
- Cosmos DB
- Azure Data Lake Gen 1/2
- Azure Databricks
- Azure Synapse
- Azure DevOps
