

Microsoft Dynamics 365

Business Central (formerly NAV)

Grow Beyond Basic Accounting Software

Microsoft Dynamics 365 Business Central is an all-in-one business management solution built for any organization, small or large, that connects your entire business in the cloud, including financials, manufacturing, operations, supply chain management, sales and customer service.

Your business can now run on one common data model in the world's most secure and scalable cloud for business, Microsoft Azure, enabling truly seamless integration between all of your applications and business processes.

Manage your financials

Accelerate financial close and report with accuracy, while ensuring compliance.

Automate your supply chain

Increase visibility across your supply chain and gain greater control over your purchasing process.

Optimize your operations

Streamline your manufacturing and warehousing operations to deliver products on time and reduce costs.

Keep projects on time and under budget

Manage budgets and monitor progress of your projects with real-time data on available sources.

Sell smarter & improve customer service

Maximize revenue opportunities and engage customers with built-in recommendations.

Essentials vs. Premium

Essentials \$70 user/month			Premium \$100 user/month	
Financial Management	Supply Chain Management	Warehouse Management	Everything in Essentials	Manufacturing
Project Management	Human Resources Management	Built-In Sales Management		Service Management

Evolve on Your Terms

Enhance and extend your solution with additional Microsoft products and PowerApps, seamlessly integrated on the Dynamics 365 Common Data Model.
