TECHNOLOGIES

# Dynamics GP on the Microsoft Azure Cloud

## Challenges

Companies face rising costs of keeping their Dynamics GP system on-premise including server maintenance, annual licensing, and system upgrades.

- IT department is short on resources – can't support specialized applications
- On-premise server costs continue to rise
- Version of Dynamics GP is outdated and upgrade to new hardware/software would be costly

## Ideal Solution

Migrating Dynamics GP to the Microsoft Azure Cloud. Outsource support, maintenance, and upgrades for one low monthly fee.

- Owned servers will need major maintenance
- Missing out on functionality released in a newer version of Dynamics GP
- IT department does not have the specialized knowledge required to support an ERP application

## Desired Outcomes

A more secure and up-to-date Dynamics GP environment that doesn't require server maintenance and other IT support. All Dynamics GP upgrades and service packs are included in monthly fee.

- Retire on-premise server
- Lower total cost of ownership
- Flexible user licensing
- No IT support required

# Migrate Dynamics GP to the Microsoft Azure Cloud with Syvantis Technologies

Improve security and increase finance department productivity by migrating Dynamics GP to the Microsoft Azure Cloud.

## Scalability

- Keep costs down by adding or removing licenses on a month to month basis
- Add modules and additional functionality at your convenience
- Scale up or down depending on business seasonality

## Overarching Security

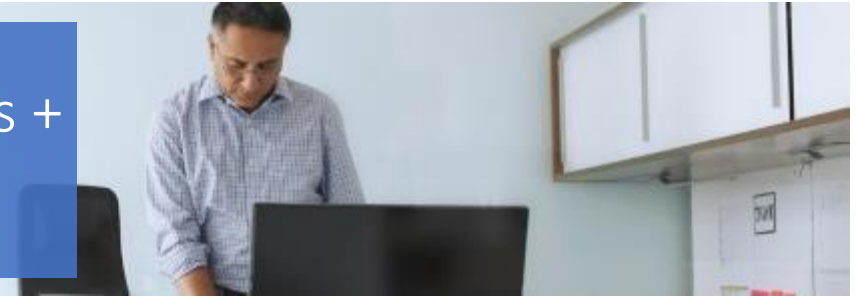

- State-of-the-art datacenter security
- Industry-standard data encryption protocols
- Threat protection services

## Ease of Deployment

- Get up and running in 3-4 weeks
- Limit downtime by going live over the weekend
- Minimal IT involvement required

“We have zero tolerance for downtime. And in the end there as no downtime. There was no disruption to the business.”

# Migrate Dynamics GP to the cloud with Syvantis Technologies + the Microsoft Azure Cloud

Reduce costs and increase productivity with multi-tenant Dynamics GP hosted by Syvantis Technologies with the power of the Microsoft Azure Cloud. This solution relieves unnecessary costs associated with on-premise server upkeep and downtime associated with an outdated system. Dynamics GP on Azure guarantees 99.95% system uptime with no associated maintenance cost.

## Solution Alignment

### Cloud Protection

Dynamics GP is more secure on Azure thanks to industry-standard data encryption protocols and threat protection services.

### Advanced Accessibility

Access Dynamics GP with full functionality through any web browser using a HTML5 web client or through Remote Desktop Services.

### Enhanced Scalability

Leverage the scalability of the Microsoft Azure Cloud with Increased capacity for database storage and seasonal needs.
