Service Description

Azure Migration Assessment

Clarify the confusion.

An effective first step in your Cloud Adoption path as you move your on-premise environment to Microsoft Azure.

Aligned with the Microsoft Azure Cloud Adoption Framework (CAF), this preparatory assessment is an excellent option for organisations beginning their Azure journey, or those looking for confirmation of their work to date.

Working closely with your team we will provide the following services:

- Identification of strong candidate workloads for migration
- Summary of migration readiness with guidance
- License optimisation recommendations
- Azure resource allocation guidance
- Monthly Azure cost estimates
- Presentation of findings and recommendations

Choose the plan from the table below that best aligns with your requirements.

Analysis and recommendation on the following in Azure	Basic	Premier*
Identify candidate workloads for migration	●	●
Summary of migration readiness with guidance	●	●
License optimization recommendations	●	●
Resource allocation guidance	●	●
Estimate of monthly Azure cost	●	●
Presentation of findings and recommendations	Summarized	Detailed
Total cost of ownership (TCO) of on-premise environment versus Azure		●
Network readiness checklist		●

*   Included in the *Azure Workload Migration Bundle*
     Please see that Service Description for further details

Benefits

- Improve Azure migration timeline and predictability
- Identify "low risk / high value" workloads to migrate to Azure
- Illustrate reduction in infrastructure TCO
- Determine areas to improve virtual infrastructure elasticity and agility

COMPUGEN
Simplifying the business of technology . . . together

Approach

The following activities are completed under this assignment:
1. Discovery
2. Analysis
3. Presentation of recommendations and findings

Pricing

	Basic	Premier
Fixed Fee	$1,000.00	$2,500.00
Invoice type	One-time	One-time
Service Code		
Customer Responsibilities	Customer engagement for project duration	
Constraints	Assessment phase limited to VMware (vCenter 5.5 or higher) VMs, Hyper-V (Server 2012R2 or higher) VMs, and physical servers running 64-bit Microsoft Windows operating systems. Ability to deploy the Microsoft Monitoring Agent (MMA) to all VMs and physical servers as required	
Out of Scope	Remediation of any issues identified during discovery Operational documentation	

Why Compugen

Compugen is a recognized Canadian leader in virtualization solutions.

Skilled and experienced virtualization experts who understand the full potential for virtualization across your entire IT infrastructure and recommend solutions to help deliver your strategic IT and business goals.
