The greatest cost and mistake we see clients make is not fully leveraging the business productivity and efficiency tools they have at their disposal. We teach you how with Cloud Roadmapping.

Steeves and Associates' Cloud Transformation Roadmapping Workshop is built to showcase the innovative technologies of Microsoft 365 and Microsoft Azure to display how these cloud technologies can **transform and evolve your business instantly.**

Steeves and Associates - Cloud Roadmapping Success

GOVERNMENT MUNICIPALITY WINS WITH CLOUD ROADMAPPING

- A government city municipality was held back by their on-premise infrastructure and technologies, but didn't know how to move forward with the cloud.
- With Steeves and Associates Cloud Transformation Roadmapping Workshop this municipality was able to gain clarity on the limitations of their existing environment, what cloud technologies align to propel the organization forward, how this would impact them both technically and operationally, and finally proof of concept workloads made theory a reality with Exchange and Azure moved to the cloud.

CUSTOMER WINS

Knowledge Transferred:

Working with the 1st Microsoft Certified Cloud Partner, the cloud transformation knowledge was gained to move forward with confidence.

Cloud POC:

Moving Exchange Online and Azure AD to the Cloud for the municipality provided the Proof of Concept to see how different workloads operated in the cloud to make Cloud Transformation a reality.

Confidence Gained:

Working through the Cloud Transformation Roadmapping Workshop gave the municipality the confidence it needed to move to the cloud with all questions and hesitations answered.
