

# Event Management Solution (EMS)

VISIONET

EMS, a scalable and holistic solution with omnichannel capabilities, automates and manages multiple types of member registrations or subscriptions, enables customization of participant agendas, enhances collaboration with internal and external stakeholders in real-time, and improves management of potential leads generated from events. Its digital, interactive kiosks bring ease of use to attendees. It also improves participant experience through real-time insights, seamless integration, intuitive dashboards, etc. From event operations, sales and marketing operations to back-office operations, Visionet's EMS provides a holistic view on every on-going task.
