Reap Microsoft Azure benefits and remove cloud migration risks with QuoStar

Microsoft Azure

ABOUT QUOSTAR'S AZURE READINESS ASSESSMENT

We assess your company's current IT infrastructure to determine and prioritize the migration of workloads to the Microsoft Azure cloud, reducing the business impact and ensuring successful outcomes.

THE ASSESSMENT PROCESS

Our Azure Readiness Assessment supports businesses that are considering migrating to cloud for the first time, as well as those that are considering a move to Azure from their current platform.

It's a structured eight-step engagement designed to ensure that you are migrating to the cloud for the correct reasons, that Azure is the right platform your requirements, and that your move is as seamless as possible.

Your assessment will be carried out by one of our Senior Cloud Consultants and is backed by our Outcome Assured™ guarantee, meaning that we promise to deliver the expected results within time frame and budget.

The consultant will present the findings, explain the results, and detail any best-practices recommendations. You'll receive a copy of the report, and the consultant will be available to answer any questions.

WHAT OUR CUSTOMERS ARE SAYING

"The QuoStar team was professional, supportive, and considered in its approach. The migration to Microsoft Azure was well thought out and carefully planned, giving us complete confidence through the process. The downtime was minimal, and the new platform is performing well, providing us with the flexibility, scalability, and resiliency we need to respond to fluctuating customer demand and business growth."

– Dan Lambeth, IT Infrastructure Manager, 288 Group

OUTCOME ASSURED

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
