

# BETTER SOFTWARE. FASTER.

**FROM THE COMPANY  
THAT TRAINED**

**OVER 35,000  
MICROSOFT  
DEVELOPERS**

Wintellect is a software development and training company recognized as a leader in mission critical architecture, enterprise application development, and developer training.

Our staff includes a roster of Microsoft MVPs and other leading subject matter experts and industry influencers, including our CEO who is the Microsoft Regional Director for Atlanta.

With major focus areas in Azure cloud, DevOps, Data Science & Analytics, Cross-platform Mobile App Development with Xamarin, and Modern Web Development, we work with customers to build

awesome solutions that are fast and scalable with modern architectures that work right the first time. If you'd rather build it all yourself, we'll train your developers with the top Instructors in the industry.

In fact, Wintellect is known as one of the top trainers on the planet. We've been Microsoft's #1 developer trainer for over a decade worldwide, with the highest instructor ratings of any partner. With a variety of options ranging from private on-sites, public virtual classes, to video-based on-demand training via our WintellectNOW online platform, we have a training option to match your needs and budget. Call us today!
