Chatbot

Reload HR Chatbot

Reload HR Chatbot helps you **automate HR tasks** making the life of your employees and managers easier and allowing you to focus on strategic activities

Features

RHR Chatbot leverages Microsoft Bot Framework and other openly available technologies to deliver several automation scenarios

- Language Understanding with LUIS
- Authentication with your corporate Identity and Access Management, e.g. Azure Active Directory
- Out of the box and custom integrations

User Experience

The User Experience with RHR Chatbot is very familiar. You can run it on majority of available channels, such as Microsoft Teams or directly in your web page. This means no extra effort for your IT or additional tools for your employees.

Deployment

Microsoft Azure is our technology of choice for the RHR Chatbot. You can run RHR Chatbot in your own account or hosted by us.

Integrations

We leverage available APIs and platforms to integrate with your systems of record, e.g. SuccessFactors.

Welcome to RHR Bot

I can help you **book your time** or **change your address**.
You can ask me some **FAQs** as well.
Type **logout** any time to close the session.
Type **help** to view this card again.
