

Boost your acceleration with your Windows Virtual Desktop experience with the most efficient MSIX transformation platform.

ABOUT RIMO3

Rimo3 is an automated Application Modernization Platform that transforms your existing applications for a full Windows Virtual Desktop experience. It's an easy to use, scalable, and cloud-based platform helping businesses and MSPs:

- Quickly modernize Windows applications to MSIX
- Manage an effective deployment into Windows Virtual Desktop
- Stay on top of continuous change and updates in Windows Virtual Desktop

VALUE FOR YOU

DISCOVER APPLICATIONS

Remove the manual component of modern application discovery.

Discover the candidates suitable for moving to Windows Virtual Desktop with the option to modernize to MSIX with Rimo3 Cloud. Save time by automatically scanning your portfolio – SCCM, Intune, file-share, and more - to determine which applications are suitable candidates for MSIX conversion.

[LEARN MORE >](#)

MODERNIZE APPLICATIONS

Automatically test, convert to MSIX, and test again in minutes.

Remove the complexity in modernizing applications for painless and quick onboarding to Windows Virtual Desktop. Use intelligent testing to understand the package pre-conversion, convert the application, test the MSIX package post-conversion – if it fails, apply automated remediations.

[LEARN MORE >](#)

MANAGE APPLICATIONS

Deliver quality packages to facilitate MSIX adoption at scale.

Deploy fully tested quality packages with complete confidence. Prior to deployment, continually test applications as new versions of Cumulative Updates and Windows are released in your Windows Virtual Desktop experience.

RIMO3 FOR MSPS

Make the migration to Windows Virtual Desktop easier for everyone.

Enhance profitability, growth, and differentiate your managed services business with Rimo3 to manage your customers' cloud environments, at scale, and lead their application digital transformation. Rimo3 has achieved nearly double success rate against other traditional tooling including Microsoft's own conversion tool.

WHAT OUR CUSTOMERS ARE SAYING

"Our customers are increasingly turning to Windows Virtual Desktop as they turn to remote work environments. With solutions like Rimo3's automation platform, organizations can easily onboard applications into their environments, proactively understand the impact of changes, and roll out new applications and updates with minimal user interruptions."

– Kam VedBrat, General Manager, Windows Virtual Desktop at Microsoft.
