Windows Virtual Desktop

Windows Virtual Desktop

The best virtual desktop experience,
delivered on Azure

- + Deliver the only multi-session Windows 10 experience
- + Enable optimizations for Office 365 ProPlus
- + Migrate Windows Server (RDS) desktops and apps
- + Deploy and scale in minutes

WVD is Microsoft's virtualisation service and delivers compelling value

Windows Virtual Desktop

Best User Experience

Enhanced Security

Simplified Management

Azure

Standardized, Global, & Secure

Superior Economics

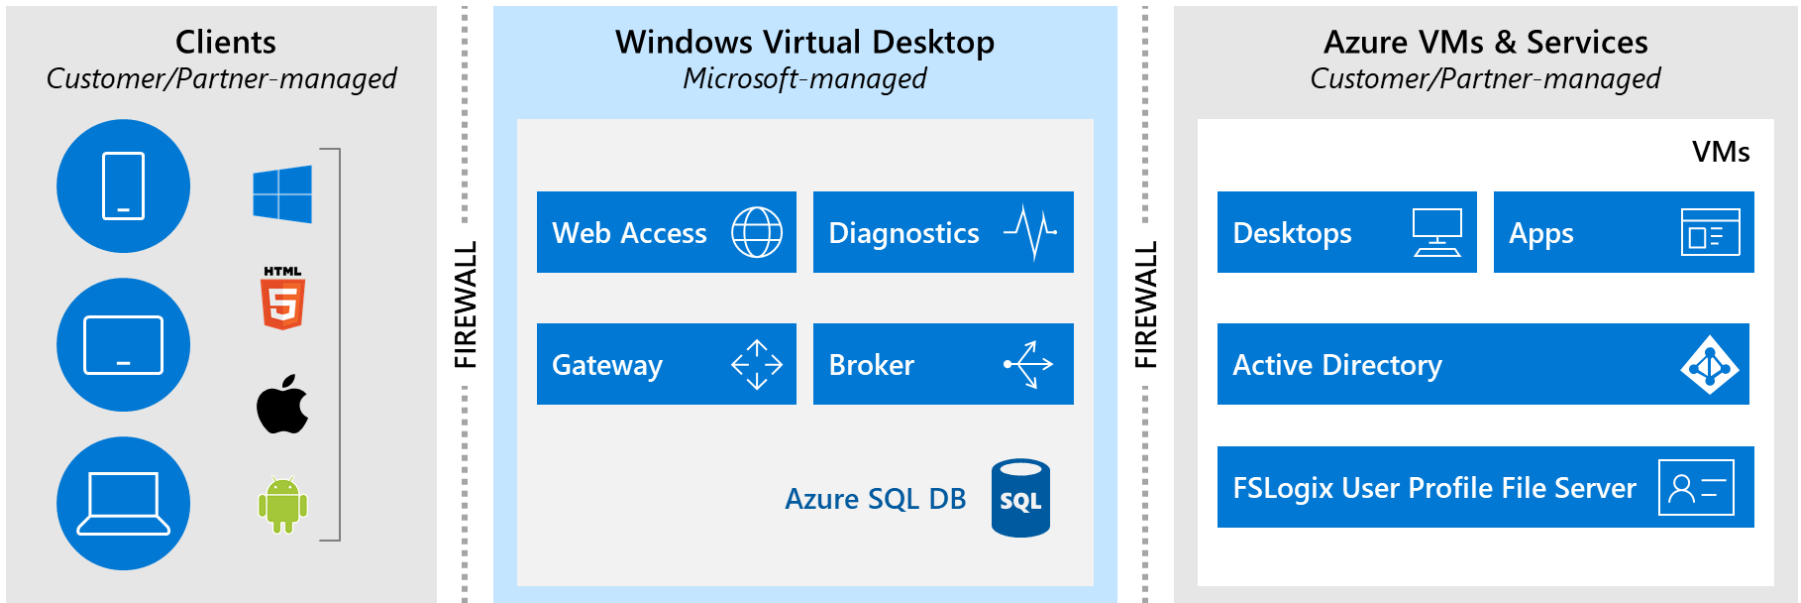

Cost effective, Flexible, & Opex

Strong Partner Ecosystem

Extensive, Integrated, & Experienced

WVD Architecture

Lightning Fast Access to Office 365

Lightning Fast Access:

- Email,
- OneDrive
- SharePoint
- Intune
- Microsoft Teams

** Only possible if the virtual desktops are placed close to these cloud applications.*

Network Performance:

Very low latency (less than 5ms)

Amazing Bandwidth:

>500 Mbps download

>150 Mbps upload speed

Security Features

- Reverse connect technology
– No inbound Ports Open
- Encrypted connections from end to end
- Role based access control via Azure AD
- Hosted in secure Microsoft Azure Data Centre

Reliable Service

Desktops hosted on Azure, leverage a highly available cloud-native architecture that achieves greater than **99.95%** control plane **availability**.

Azure guarantees at least **99.9%** **uptime SLA** to customers

Compliance & Standards

- Full compliance with all legal and statutory requirements (including Data Protection)
- Information Security - ISO 27001:2013 and Cyber Essentials
- IT Service Management - ISO 20000 (ITIL)
- Quality Management - ISO 9001:2015

Desktop as a Service Support

Bridgeall's Managed as a Service Platform offers provisioning and ongoing support for desktop virtualisation for use with Office 365 ProPlus.

The Service delivers on-demand published apps and desktops to users for anytime, anywhere, any device access.

This will provide V.Ships employees with full access to their complete business desktop from multiple devices, such as their home PC, a smart phone or an iPad.

Bridgeall Solution Support

Bridgeall can

- Validate your AD & Fileserver setup
- Maintain your Azure Tenant & Subscription
- Setup and maintain a backup strategy
- Manage and deploy your updates (Software, Windows, Office, etc)
- Manage costs
- Manage Apps deployment and images
- Monitor and maintain security
- Daily environment check

Bridgeall has developed best practices from Microsoft and Azure, and our years of experience working on the Cloud.
