Qlik to Power BI Migration Implementation: 4 Weeks
BlueOrbit Solutions

Start your migration journey with a first implementation, to include migration of an application and its data structure from QlikView to Power BI.

Along with our expertise in Power BI, we have over 10 years of experience in Qlik. We are one of the leading migration specialists with a proven record of delivering several migration projects with effective results on time.

Our methodology & processes enable us to deliver quality and consistency. Our process includes usage of our proprietary **Power BI MigrateExpress Analyzer™** tool to enable data driven decisions, an improvement over a manual approach.

Agenda:

- Install & run Analyzer within customer QlikView environment
- Create an agile delivery model (Sprints)
- Study the QlikView application for migration*
- Create data model using Power BI Dataflows and Datasets
- Design & develop Power BI Report
- Implement data access & security requirements
- Perform data validation & UAT
- Customer sign-off & deploy Report in production

*This offer is based on a QlikView application of medium complexity and up to 5 pages. Different parameters can be discussed.

Deliverables:

- Power BI Report including data model
- Documentation & Knowledge Transfer

Price: $24,000
