

# *Sycor.Rental*

Industry Solution for Bulk & Serialized  
Rental Planning and Execution

We give IT a face.

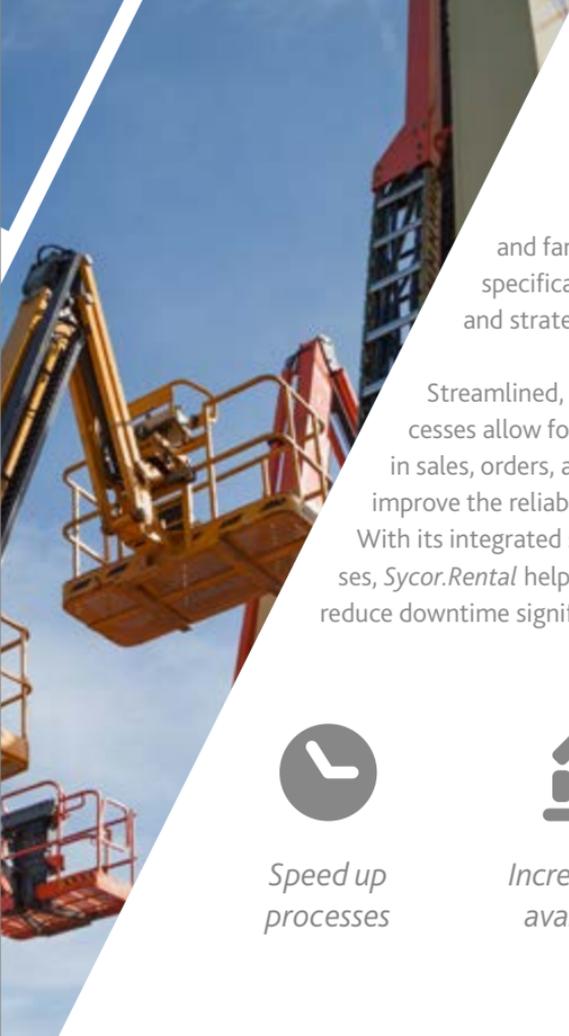

## ***Sycor.Rental* - industry ERP solution**

*Sycor.Rental* - Certified for Microsoft Dynamics 365 (CfMD) - is a full-fledged industry solution for bulk and serialized rental planning and execution based on Microsoft Dynamics 365 for Finance and Operations.

Dynamics 365 for Finance and Operations, turns *Sycor.Rental* into a scalable, flexible cloud solution with role-specific mobile access to processes, data, and business insights.

*Sycor.Rental* maps all business processes across sites, offering rental companies full control of their entire operation. The solution features asset lifecycle management, business intelligence,

and far-reaching and structured device specifications for confident operational and strategic decision making.

Streamlined, automated yet flexible processes allow for fast processing times – e.g., in sales, orders, and billing – reduce costs, and improve the reliability of the financial forecast. With its integrated service and maintenance processes, *Sycor.Rental* helps increase fleet availability and reduce downtime significantly.

*Speed up  
processes*

*Increase fleet  
availability*

*Reduce  
Downtime*

## Overview of processes and functions:

## Role-based access & mobile availability

Using the Microsoft Dynamics 365 workspace concept, *Sycor.Rental* grants role-based access to rental functions, processes, and business intelligence – fully mobile and on any device. Integration into the standard project module of Dynamics 365 for Operations enables users to manage any rental project with ease.

With real-time, cross-location scheduling and transport management functions for accurate and on-time delivery and pick-up, *Sycor.Rental* helps align the company with changing customer demands, serve them individually, and boost their satisfaction and retention.

*Role-based  
access*

*Easy project  
management*

*Boost customer  
satisfaction*

*Sycor.Rental* provides rental companies with the productivity, intelligence, mobility, and unified service capabilities of Microsoft Dynamics 365 for Finance and Operations. *Sycor.Rental* can be bought bundled with Dynamics 365 for Finance and Operations or as an add-on, and deployment options include cloud, on-premises, and hybrid scenarios. The solution is available on Microsoft AppSource.

*On premise*

*Cloud*

*Hybrid*

Microsoft Dynamics ISV Sycor is an international full-service partner and solution integrator for Microsoft Dynamics 365 and a Microsoft Strategic Development partner for the rental, trade, service, and maintenance of mobile goods. With *Sycor.Rental*, based on Microsoft Dynamics 365 for Finance and Operations, Sycor helps individual and bulk rental companies gain and secure a competitive edge. Our experts consult, implement, optimize and operate cloud, on-premise, and hybrid scenarios. For major implementation and rollout projects the Sycor Group is a reliable partner. More than 550 employees and 20 locations worldwide (Europe, Asia, North America) assure international delivery capabilities.
