

Userlane drives adoption

Userlane is a no-code digital adoption platform for large organizations to increase the speed of software adoption and utilization.

Traditional Approach

On-site trainings, handbooks, videos, wiki and helpdesk

- One-off solutions
- Time-intensive
- Quickly outdated
- High maintenance

Modern Approach

In-app support, context-sensitive guidance, interactive learning

- Continuous support
- Bite-sized content
- Quickly updateable
- Easy maintenance

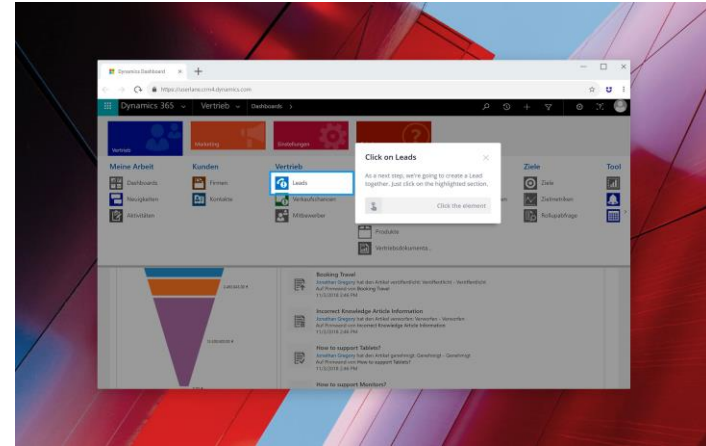

Benefits

3x faster rollout - personalized software training from the start

2x higher adoption - make complicated software fun and easy to use

2x lower support cost - reduce the number of support requests
