

Why Integrate Microsoft Teams and Your Contact Center

Customers

#1

Phone is the number one preferred channel of choice across all age groups of customers (56%), followed by email (19%) and chat (14%).*

97%

of customers say that a **positive customer service experience** is at least somewhat likely to make them do business with a company.*

87%

of customers say that **great customer service is important** when deciding whether to do business with a company.*

Agents

34%

of customers are **willing to wait longer if it means the agent gets the answers right.**

Providing agents with the tools they need to answer customers' questions correctly is the **MOST** important thing businesses can do to provide a positive customer experience.*

72%

of customers expect agents to resolve their customer service issues in **15 minutes or less**.*

Business

74%

of customers say **it's important for companies to have information** about their past interactions when they contact them.*

59%

of customers are **unlikely to continue to do business with a company** if it requires a lot of effort to resolve an issue. However, companies that offer positive customer experiences through great service are more likely to have loyal, repeat customers.*

37%

of enterprises still have not integrated their CRM.

A poll conducted by Five9 during a No Jitter webinar found that 37% of enterprises still have not integrated their CRM into their contact center experiences. No Jitter webinar, 2018

"The API-based connectors are now offered in online exchanges that help to make the core UCC platform more attractive to buyers, and now, as a result of the API layer, more providers are shifting to offer app marketplaces"

The Aragon Research Globe™ for Unified Communications and Collaboration, 2020, Aragon Research. 2020.
