# **How does Digital Assistant help?**

Automatically checks and aggregates your business app notifications into one place, e.g. a new approval, new ticket, server gone down

Always be connected to your workplace – even outside the office; with chatbots for popular enterprise chats like Slack or MS Teams

Avoid constant window hopping with an Al chatbot you can ask anything instead of having to hunt for the information yourself

Quickly integrate the Assistant with your existing data, with dozens of plug-and-play API integrations from the Card Hub

Pin interesting Cards to a personalized Board so you can quickly check in on your favorite sources

Delight and empower your employees: Award-winning digital workplace; proven to improve workplace satisfaction by 17%

# **How does Digital Assistant help?**

# 5 Ways Digital Assistant innovates the employees experience for users

- 1. Receive **smart notifications** from any data source or cloud app
- 2. Use AI to find anything or start requests within seconds
- **3. Fill out forms** on the go, or inside chat tools
- **4.** Take your data with you via web app or chatbot in Teams or Slack
- 5. Find Cards **embedded into the Intranet or Search** and pin them

# 5 Things Digital Assistant can do for users in <u>under 1 minute</u>

- Look up and request PTO and manage PTO requests
- 2. Find and reserve a meeting room and order catering
- 3. Get recent **service desk issues** or start a new issue yourself
- **4. Approve expenses** or submit an expense report
- 5. Look up a colleague and find the **best** way to reach them

# Use it on any channel

Mobile Web App

Desktops

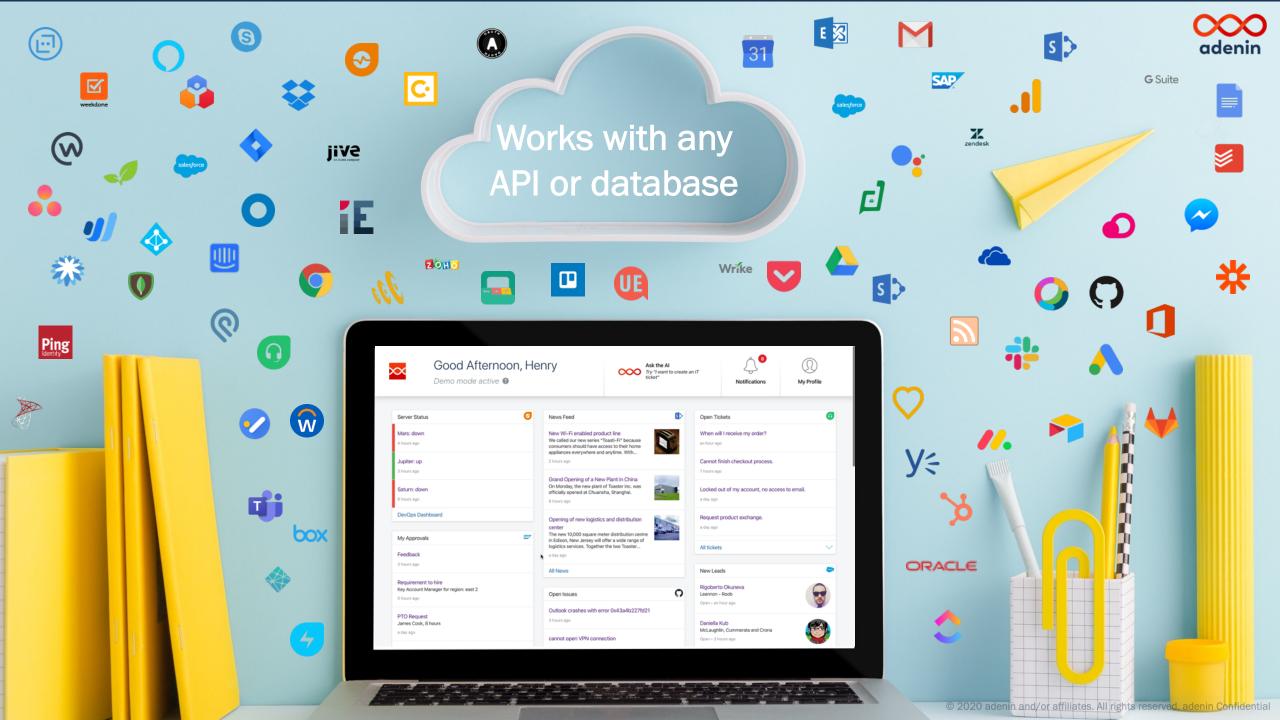

Chatbots & Webchat
