strategy execution has been *top down* and *disconnected* for years

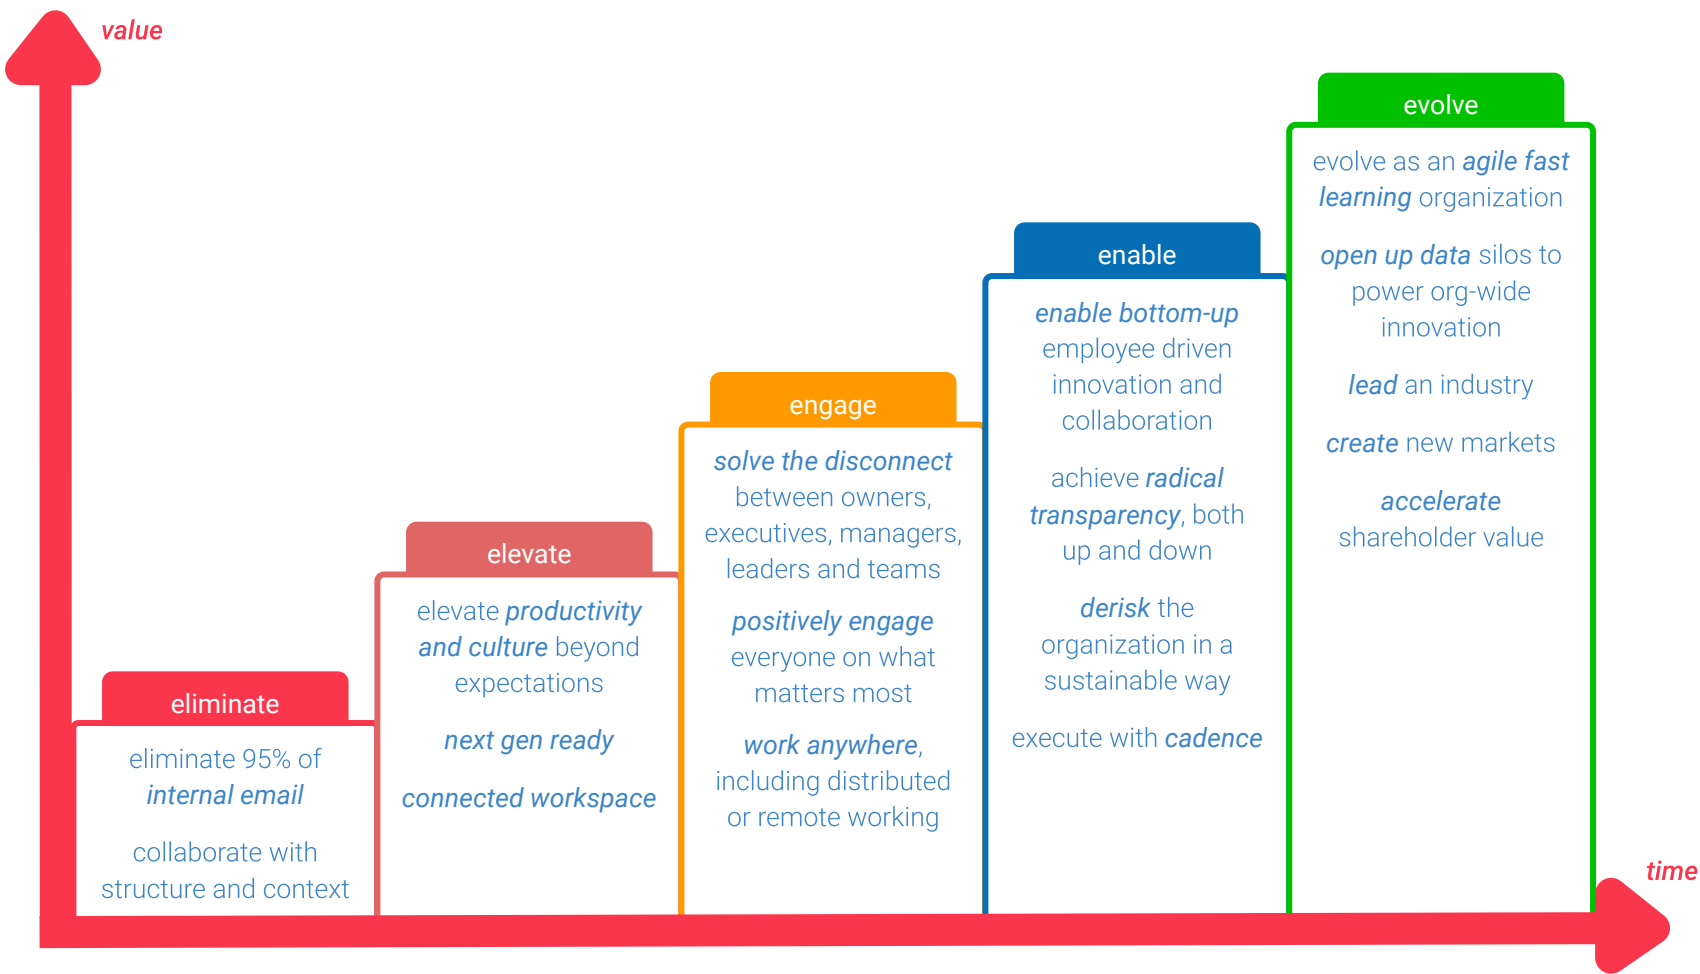

and most of us spend 40% of our time on email

# #stratapp solves both

creating value in 5 phases

# seamlessly execute strategic and day to day work in one app

# explainer video

# powered by Microsoft

- scale
- security
- reliability
- speed
- microservices architecture for fast product evolutions

- adding value to client's existing investment in MS Teams
- elevating social collaboration to connect strategy with day to day work, focusing on what matters

#stratapp also connects to #slack

# outcomes

## culture elevation

- radical transparency and trust
- real-time alignment and collaboration
- digital transformation and remote working

## next gen ready

- by 2025 more than 75% of employees are y-gen
- asking y-gen to use email and static docs, is like asking all us to go back to using fax machines

## employee productivity

- 15-30% increase in productivity
- provide employees tools to succeed
- attract and retain the best talent

## business performance

- 15-30% increase in business valuation
- de-risk and make the business agile
- execute strategy above expectations
