

AzNavigator

Migrate and adopt to Microsoft Azure with your eyes open – backed by an objective business case, solid architecture, design expertise, and well thought organizational change management strategies.

Outcome based tech adoption

Improve business agility, enhance resilience and optimize IT costs through end-to-end services around strategy, business case, planning, and migration to Microsoft Azure

Why Eighty20?

Large cloud migrations are complex, with many avenues, technologies and methodologies. Eighty20 solutions has successfully deployed Microsoft cloud solutions through our end-to-end delivery process from discovery, design, build, migrate, test, and change / adoption. Realise benefits sooner by moving to an enterprise cloud platform and operate sustainability for future innovations

HELP YOU GET THE MOST FROM

90+ TEAM MEMBERS

Gold Microsoft Partner

\$45m

TRANSFORMATION DELIVERED

100% AUSTRALIAN OWNED

What you can expect?

- Simplified vendor management – we deliver end to end solutions and help you to consolidate program office
- What you see if what you get – our delivery team comes from years of experience in sitting on the client side
- Trusted advice – we focus on what matters and avoid technical “gold plating”

Benefits & Outcomes

- Comprehensive Cloud business case, with articulated business benefits and costs, ready for funding approval
- Reduced delivery times for an enterprise scale Azure landing zone with governance guard rails
- Reduced operational costs and future transformation costs with a sustainable cloud operating model

More Azure offerings

- AzTransformer- helps you to migrate and transform
- AzWell - helps you to optimise cloud footprint
- AzWatcher – helps you to strengthen security posture
