

PRIVATE AND SECURE LIVE STREAM VIDEO FROM SMARTPHONE  
FOR CRISIS MANAGEMENT

# IMPROVED CRISIS MANAGEMENT

**FASTER DECISIONS  
MORE EFFECTIVE**

# LIVE & WATCH APPS

LIVE

# LIVE APPLICATION

Simplicity: 1 button for broadcasting, predefined automatic notifications

Targeting: groups notified in real time according to the constraints

Geolocation: from the transmitter

Security: total privatization of direct and replays

Long life cycle: repetitions, analyzes, download for post-production

# WATCH

## WATCH APPLICATION

Simplicity: instant access to the geolocated live with one click, viewing of reruns after the live

Implication: receipt of the push notification when launching a live, possibility of feedback and interactivity

Confidentiality: the collaborator can consult the live broadcast and reruns but cannot save or share them

RETURN OF EXP: MORE COMPLETE, PRECISE

Watch, you're there
