

Parrot

Use Parrot to keep track of your recurring invoicing

Do you regularly send the same invoices to your customers? Are you relying on manual procedures to invoice the correct amounts in the right time?

Parrot makes it easy to invoice the same fees every month, quarter or year. Parrot keeps track of all your recurring charges and fees to be billed after the determined periodicity of each contract. Parrot makes sure that all charges are invoiced in time and keeps the manual work at a minimum.

Features and benefits with Parrot:

- Ensures that your customers receive a correct invoice at the right time
- Enables better forecasting when all your contracts are registered in Dynamics 365 Business Central
- Be able to connect pricelists to your recurring fees, such as subscriptions, licenses and leases.
