# SpeedTrack Teams Launch

Healthcare organizations can deploy Microsoft Teams confidently in a compliant, secure, and legally defensible manner.

## Key Use Cases

### TEAMS ASSESSMENT

Assessment of current legal and compliance risks, and risk mitigation strategies while embracing remote work.

### INFORMATION GOVERNANCE

Identify privacy, records, ediscovery and compliance requirements for a successful implementation.

### ENABLEMENT & IMPLEMENTATION

Provide legal and compliance teams guidance to enable Implementation in a legally defensible manner.

## Increase collaboration while keeping legal compliance at the forefront

Healthcare organizations are proactively reinventing collaboration to enable greater innovation and better quality of care for patients. Microsoft Teams provides a robust platform to facilitate this communication. The number of Teams users is multiplying dramatically. This can be a challenge for legal and compliance teams—managing potential exposure and risks that result with increased communication online, as well as the continued Microsoft Teams enhancements that help businesses communicate more efficiently.

Lighthouse works with legal and compliance teams to ensure their organization is managing communication in a compliant, secure, and legally defensible manner. We help organizations assess their current plan and provide recommendations for long term compliance leveraging Microsoft 365 tools. The in-depth process provides peace of mind for legal and compliance departments knowing they have the right tools to manage the flow of information shared on the Teams platform.
