Industry Challenges

Healthcare organizations are proactively reinventing communication to improve workflow efficiency, streamline collaboration, and connect data across existing sources. This increase in data leads to new legal implications to preserve protected data while improving outcomes.

In-house legal and compliance departments struggle to adopt, deploy, and manage Microsoft 365 features designed to support their programs.

Healthcare organizations need to ensure their deployment includes legal and compliance considerations at the beginning of the process so organization can protect sensitive patient data.

Deep subject matter expertise is needed in both platform functionality and organizational requirements to help healthcare organizations operationalize Microsoft 365.

SpeedTrack Teams Launch

Healthcare organizations can deploy Microsoft Teams confidently in a compliant, secure, and legally defensible manner.

Key Use Cases

TEAMS ASSESSMENT

Assessment of current legal and compliance risks and potential risk mitigation strategies.

INFORMATION GOVERNANCE

Identify privacy, records, ediscovery and compliance requirements for a compliant implementation.

ENABLEMENT AND IMPLEMENTATION

Provide legal and compliance teams guidance to enable Implementation in a legally defensible manner.

Increase collaboration while keeping legal compliance at the forefront

Reduce Legal Risk

Lighthouse works with legal and compliance teams in healthcare organizations to ensure that their organization are managing communication in a compliant, secure, and legally defensible manner. We help organizations assess their current plan as well as provide recommendations for long term compliance leveraging Microsoft 365 tools.

The in-depth process provides peace of mind for legal and compliance departments knowing they have the tools needed to manage the flow of information shared on the Teams platform.

Tools to Succeed

Lighthouse helps organizations deploy Microsoft Teams with confidence. We:

- Provide an overview of how Teams works (from an end-user, administrator, and technical perspective), relevant ediscovery and information governance considerations, and key considerations for auditing.
- Submit a detailed report summarizing our findings, including current legal and compliance risks and risk mitigation strategies.
- Enable legal and compliance teams for a successful implementation that includes configuration, automation, validation, and training.

Why Lighthouse?

With deep expertise in legal advisory and a trusted Microsoft partner, we help healthcare organizations take advantage of modern workplace technology tools

PROACTIVE STRATEGY

Our specialized teams keep pulse on changing technology, hyper-focused on both the technical implications and legal, compliance, and regulatory impacts to provide preemptive solutions evolving your organization's information governance, compliance, and ediscovery programs.

PROVEN EXPERTISE

With more than 25 years of information governance, compliance, and ediscovery experience, we provide comprehensive strategies and best practices to ensure your programs surpass stringent legal and compliance requirements while reducing risk and costs.

ELITE PARTNERSHIP

Lighthouse is the premier Microsoft partner for information governance, compliance, and ediscovery. Our deep-seated partnership with Microsoft is built on trust and a more than 20-year collaboration, resulting in exclusive access to product insights and roadmaps.

Gold
**Microsoft
Partner**

For 25 years, Lighthouse has been a leader in innovative software and services to manage the increasingly complex landscape of enterprise data for compliance and legal teams.
