# TECHNOLOGY SOLUTIONS

# AN ENTERPRISE CLOUD EXPERIENCE

As a Microsoft Gold Partner, we deliver comprehensive cloud solutions that are designed for stability and usability to scale with your business as you grow.

## CUTTING-EDGE BUSINESS IT

What makes Infused Innovations unique in the technology support space? There are countless managed service providers out there who can provide ground-level support and handle technology nuisances when they come up. Infused Innovations is different. We're intelligent workplace and cloud readiness specialists who keep our clients on the cutting edge of business technology to ensure their

IT is working to advance their own specific business goals. We provide the support you need on the ground, of course, but Infused Innovations also delivers advanced solutions to your most pressing business problems, leveraging new technology as it is developed. In the end, where we truly thrive is in long-term customer relationships. Our mission is to support your business through technology for years to come.

## **SUSTAINABLE CYBERSECURITY**

In the coming years, the business and professional world will experience a shortfall of cybersecurity experts, and that's understating the problem—we're talking about more than 3.5 million people according to Forrester. Infused Innovations partners with clients to deliver cybersecurity solutions for the future. In other words, we aren't out there to patch a hole in your system and then move on. Instead we focus on monitoring, compliance, strategy, and infrastructure design as a proactive approach to cybersecurity.

## **ASSESSMENTS**

- Free Rapid Cybersecurity Assessment
- Microsoft 365 Licensing Assessment
- Shadow IT Assessment
- Secure Score Assessment
- Business Continuity & Disaster Recovery Assessment

Schedule a free assessment to determine your risk profile and see where improvements can be made.

**Make technology work  
for your business goals  
with Infused Innovations.**
