Powell Teams

A Microsoft Teams experience that is under control, effortless, and organized.

> "Microsoft Teams fast adoption has led to a sprawl of Teams making its management time-consuming"
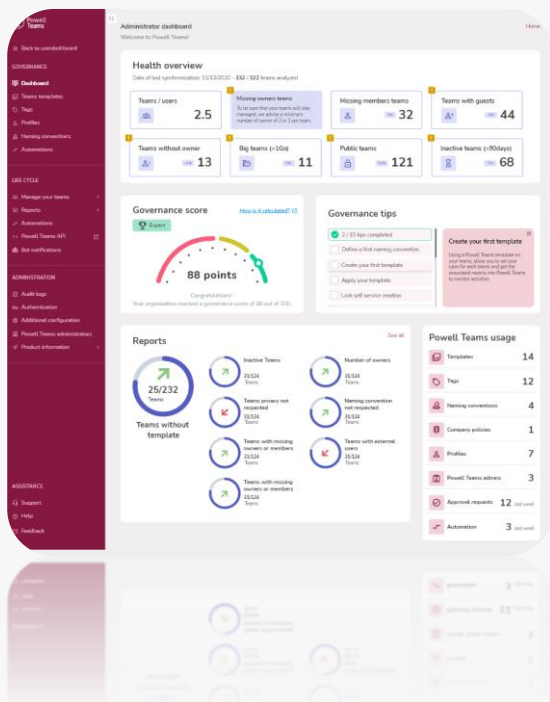

For IT Teams

Ready-to-set governance

All the IT rules you need to implement are there. Choose your strategies and apply your policies to secure your environment and its best practices.

Life cycle management

Manage existing teams through a simple admin dashboard, advanced reports and governance score. Reduce unnecessary teams and non-compliant teams by 3. Save 80% of your time by enabling the Bot and its automation capabilities.

Automation for business processes

Powell Teams provides a set of APIs and a connector to automate processes from 3rd party applications and Power Platform. Link your apps in your team templates. Get teams automatically created.
