

Cloud Desktop Program Securely Working From Home

Preparing your organization to work from home for an extended period? Enabling is a 100% virtual company and has been operating in this manner for over 4 years. We know how to work remotely.

Enabling's Cloud Desktop Program allows your workforce to stay secure and productive while working remotely using Azure Virtual Desktop, Microsoft 365 Apps, Teams, and your line of business applications.

Endless Possibilities With Azure Virtual Desktop

Scalability

Set up a multi-session Windows 10/11 deployment that delivers a full scalable Windows solution.

On-Demand Responsiveness

Connect from any device through either a native application on your device or the Azure Virtual Desktop HTML5 web client.

Optimization

Optimize Microsoft 365 Apps for Azure Virtual Desktop.

Technical Reach

Bring your own image (existing Remote Desktop Services (RDS) and Windows Server desktops and apps) to any computer.

Manageability

Manage Windows 10/11, Windows Server, and Windows 7 desktops and apps with a unified management experience.

Security

Securely establish users through reverse connections to the service, so no inbound ports are left open.

MIGRATION MADE EASY

Leverage your existing Azure infrastructure and Microsoft 365 tenant to provide a complete remote workforce solution to keep your business humming. If you don't have Azure or Microsoft 365, we can help you get what you need quickly.
