Microsoft

Discover the state of your cloud adoption journey and identify the best path forward using the Microsoft Cloud Adoption Framework.

Cloud adoption will encompass several business functions and departments. Successful adoptions require meticulous planning to ensure an effective transition.

KiZAN's Cloud Adoption Jumpstart includes:

▶ **Cloud Maturity Assessment**
Identify progress and potential optimizations for any existing cloud adoption efforts and define business outcomes and ROI expectations.

▶ **Cloud Adoption Framework Advancement Workshop**
Develop a remediation plan for any identified skill or procedural shortcomings, define the teams and resources necessary to operate in Azure, and empower the customer to independently drive the future of their cloud adoption journey.

Companies adopting the Cloud could see an **ROI of up to 478%.**

According to Forrester's Total Economic Impact (TEI) of Microsoft Azure IaaS and PaaS

Deliverables

▶ Cloud Maturity Assessment
▶ CAF Advancement Workshop
