

# FILE SERVERS IN THE CLOUD

## About ConvergeOne:

We invest in our customers through a series of strategic workshops to learn and uncover true business challenges within an organization. This methodology allows ConvergeOne to then tailor and roadmap a series of Microsoft solutions to meet your challenges today and deliver on real business objectives.

### MIGRATING YOUR FILE SERVER TO SHAREPOINT

## WHAT WE OFFER

Our certified M365 experts will review, plan, design, and migrate your file servers to SharePoint Online so you can have access to the files you need while working from anywhere. Governance and Security are always top of mind for our engineers, meaning you can ensure you'll have all the access need, while ensuring the people that shouldn't have access won't.
