

Let your employees get connected with Viva and start with our Workshop

With this Viva workshop, Softline will help you discover and understand your current challenges with respect to employee experience. By the end of the workshop, Softline will help you to create a roadmap for Viva solutions.

Why Softline

As a Microsoft gold partner, with different skillsets and expertise with Microsoft Technologies, Softline will deliver a meaningful workshop that will help you internalize your current state and bring it to your desired state which brings a connection of people, data and applications into one single platform. Our team will work with you through workshops to understand your priorities, challenges, and culture to design a solution that meets your requirements.

Get started today with **Viva**

- Build a meaningful workshop engagement to understand the current challenges and empower each of the employee to share ideas/feedbacks
- Softline to create a solution plan based on the customer's environment
- Plan and create a Viva roadmap

Approach & Deliverables

Assessment

- Kick Off
- Presentation of Viva Solutions
- Sessions to understand the current state of the employees in terms of engagements & communications and their wellbeing & productivity

Envisioning

- Brainstorming solutions to fit with customer pain points
- Mapping Viva Solutions to each of the Employee challenges

Planning & Recommendation

- Identify & Prioritize: Scenarios, high priority Topics
- Provide Roadmap and Guidance (Best Practices, Remote Guidance, Tools & Resources)
- Next Step: Pilot
