Showcase modern meetings experiences and build a plan to deploy and adopt Microsoft Teams Meetings and Meeting Rooms.

## Come together to get work done

We're building experiences to help everyone thrive in this new world of hybrid work – accelerated by organizations' rapid move to the cloud. In the current environment, there is a greater need to deploy solutions and services that will bring people together in a virtual setting. Flexible work is here to stay: over **80% of managers say they expect more flexible work from home policies**, and more than **70% of employees say they expect to take advantage of them**.\*

With Microsoft Teams, you can help people stay connected, collaborate seamlessly, and simplify work, in a secure and compliant way – all in one place. In short, Teams is where people come together to get work done, and meetings and meeting rooms are the foundation.
