POWER BI ADVANCED DAX: ONE-DAY WORKSHOP

This training will allow attendees to work with Data Analysis Expressions (DAX), perform calculations, and define common business calculations for use in reports. They will also be able to address performance and functionality concerns.

PREREQUISITES

• DIAD training and Advanced Data Modeling and Shaping training, or equivalent working experience

This course has been designed specifically for experienced model developers. We recommend that attendees have prior experience working with Power BI Desktop to create data models.
WHAT YOU WILL REVIEW

• Writing DAX formulas
• Defining calculated tables and columns
• Defining measures
• Using DAX iterator functions
• Modifying filter content
• Using DAX time intelligence functions

DELIVERABLES

Upon completion of the training, Impact will provide a certification to all attendees, along with files, reports, and dashboards generated throughout the sessions.

impact

ABOUT IMPACT NETWORKING
