MICROSOFT PARTNER SINCE 1993   Microsoft   **www.steeves.net**

Start your journey towards endpoint and device protection today with Steeves and Associates' Azure Empowered EndPoint Management Service that includes:

1. A full endpoint and device management audit to identify and detect potential risks and inefficiency, and devise a plan to eliminate potential risks and drive productivity through review of current endpoint infrastructure including:

(a) Microsoft Endpoint Configuration Manager
(b) Microsoft Endpoint Manager Intune
(c) Co-management for Cloud and on premise
(d) Cloud enhanced Azure capabilities such as Endpoint Protection, Azure Advanced Threat Protection, Desktop Analytics and AutoPilot.
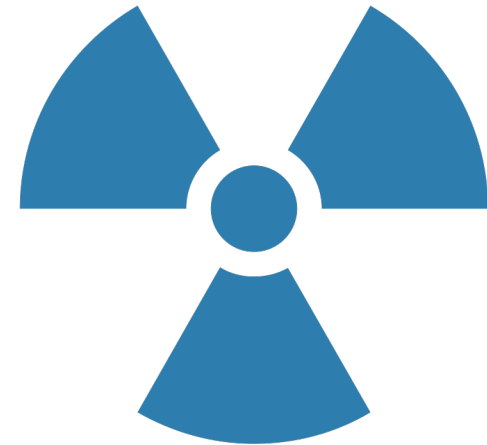

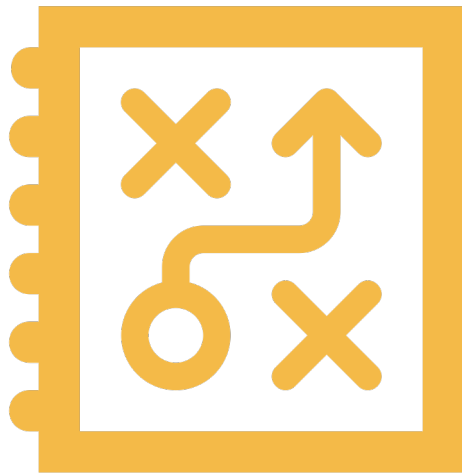

2. Our EndPoint Management Team will create and assist in the implementation of your Azure Empowered EndPoint Management tailored plan.

The desired outcome will be an update of your infrastructure to take advantage of the latest Azure management and security capabilities offerings tailored to your environment.

3. Delivery of your optional Azure EndPoint Management, Device Protection + Security Service Best Practices 2-Hour Workshop Session.

This will include stakeholders such as internal security and IT teams and is intended to transfer knowledge and ensure that they are up to speed.

4. Scheduling of your tri-annual review of your EndPoint Management infrastructure to highlight newly available features in Azure AD, Azure, Intune and ConfigMgr, and plan for implementation.

Azure Empowered EndPoint Management Service Benefits

Azure Empowered EndPoint Management Service Benefits:

- Secure your cloud, on premise and remote endpoints with the most reliable tools for your infrastructure.
- Gain peace of mind by ensuring your devices are protected.
- Eliminate potential risks to your organization's endpoints.
- Ensure thoughtful endpoint protection based on the findings of an endpoint audit of your environment.
- Receive a tailored Azure Empowered EndPoint Management plan.
- Update your infrastructure with the latest Azure management and security features.
- Get your team up to speed with a 2-hour EndPoint Management workshop.
- Safeguard your organization's endpoints now and in the future with a tri-annual review.
