# Next Generation Business Dashboard for managers

## Data without context is not actionable

In addition to bringing data from all sources, Tonkean uses AI to proactively reaches out to your team and ask for their input when important data changes, giving you the context you need and the ability to take immediate action - all in one place.

**It's the only true command center for managers.**

## Managers LOVE Tonkean

"We haven't missed a deliverable since we implemented this 9 months ago. With Tonkean, I don't need to worry about things unless I should be worried about them."
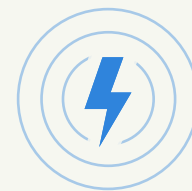

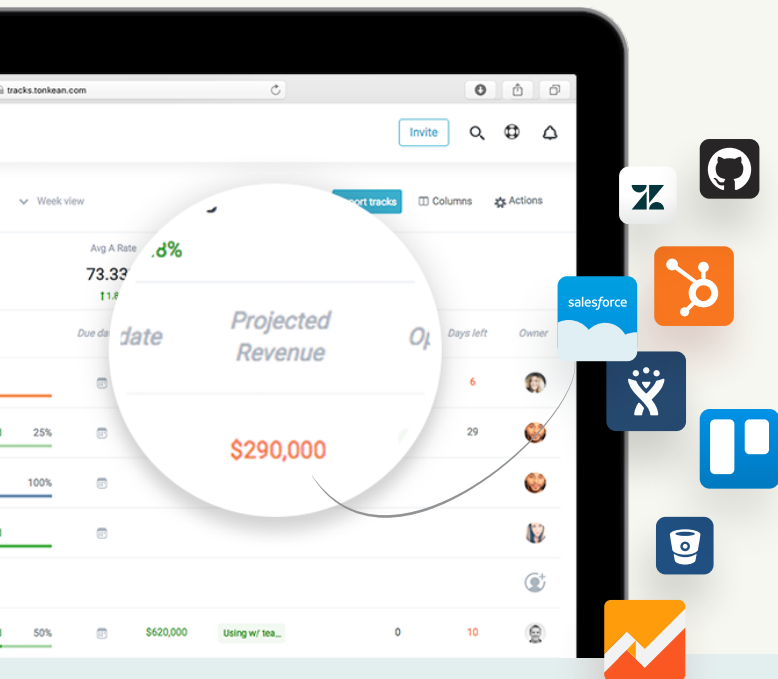

**Wes Goldtein**
*Client Engagement, JCS Consulting Group*

Tonkean is an absolute game changer because it lets me be everywhere at the same time - it's like it duplicates me!
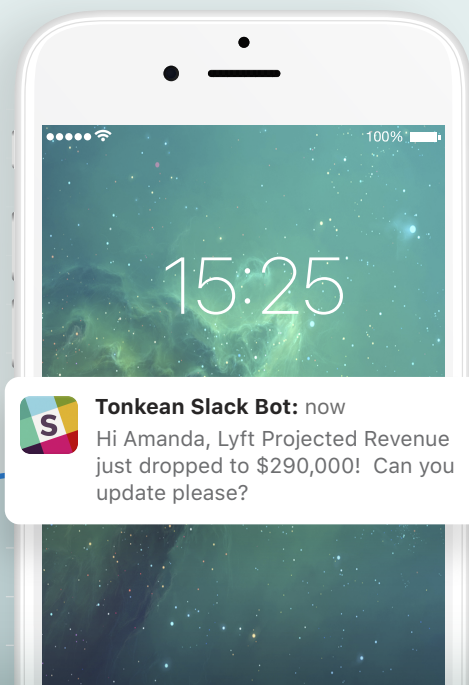

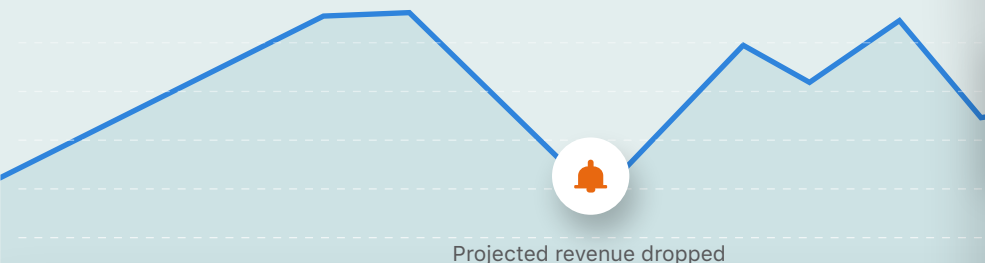

**Ariel Cohen**
*CEO & Founder, TripActions*
