Data Estate Modernization

Jumpstart Program
Get Your Data Estate Modernized in 6 Weeks

---

Hanu's Data Estate Modernization Jumpstart Program helps organizations to build a modern data platform which is fully or partially cloud-based on Azure and is the foundation of their transformation journey. Azure based data platform is compliance-ready platform which adheres to regulatory requirements such as HIPAA, BCBS, GDPR, and other regulations.

This outcome driven program helps enterprise assess and transform their data estate by leveraging Azure data platform, to build a single source of truth for all AI, analytics and data warehouse and deliver at least one of the use cases agreed by the customer like Data Estate Migration, Data Consolidation, or harnessing data for insights.

This program is powered by Hanu's Data Estate Modernization framework which includes accelerators like Assessment Toolkit, Accelerators, Automated Data Ingestion industry specific KPIs and business solutions leveraging Data & AI/ML.
