

# Azure Viability Analysis Readiness, TCO & ROI

[See this offer in Azure Marketplace](#)

Zensa's 2-week Azure viability & feasibility assessment service is designed for companies that want to use Azure to successfully implement their digital transformation goals. We'll evaluate your company's present on-premises (or alternative cloud) settings, analyse your customers' Azure readiness, and provide a detailed Azure Viability report based on our findings. We will clearly evaluate company's cloud objectives and goals, review existing workloads/infrastructure, IT & other costs, security, and compliance requirements, and determine the best Azure adoption options to increase agility and save money, working in collaboration with business and technology owners.

## Features

- 2 Weeks Azure Viability Assessment Workshop.
- Align customer's business goals & objectives for Azure adoption with all stakeholders.
- Review existing apps/workloads, security, compliance, licensing & governance models.
- Evaluate IT and other costs/factors including support to deliver best TCO on Azure.
- Perform deep Azure adoption analysis based on requirements gathered.
- Provide customer with a comprehensive and transparent view of their Azure journey.

## Deliverables

- Comprehensive document detailing customer's current environment/state
- Proposed corresponding Azure services, solution and system architecture
- Azure migration options, strategies, methods and timeframes
- Azure migration cost analysis with detailed TCO/ROI models for running in Azure.

## Zensa's Process

### Discover:

We will work with all stakeholders to assess customer's current apps & workloads deployed to determine the optimal strategy and methods for migrating to Azure.

### Review:

Zensa will review key findings with all stakeholders to determine the most efficient Azure migration path.

### Analyze:

Based on feedback, we will perform a thorough analysis that will help determine priorities for migrating each application and/or workload to the Azure.

### Recommend:

Zensa will finally deliver a comprehensive organizational Azure readiness report along with assessment details and the best Azure adoption strategy & recommendations.

## ZENSA'S CLOUD TECHNOLOGY SERVICES

### Cloud Enablement

- Cloud ROI and TCO Analysis
- Workload Discovery and Assessment
- Migration Planning
- Datacenter Migrations
- Data/Database Migrations
- Cloud Reseller Migrations Training

### DevOps, AIOps Automation

- DevOps Capability Assessment Services
- Continuous Integration, Delivery, Deployment Pipeline Design and Implementation
- Automation Services
- Compliance and Security Services (Hardening)
- DevOps Training

### IoT Solutions, Data, Analytics

- IoT Solutions Architecture Design
- Sessions (devices and applications)
- IoT Automation and Hardening
- IoT Edge Implementation Services.
- Insights and Analytics
- IoT Training

### Application Services

- App Modernization (Micro-services, Docker, Functions, Event Driven)
- Application Perf Tuning & Monitoring
- Legacy Application Migration
- Mixed/Virtual/Augmented Reality
- AI & Machine Learning
- 3D UI/UX Designing
