Azure Stack HCI is Microsoft's hyperconverged solution that hosts virtualized Windows and Linux workloads and their storage in a hybrid environment that combines on-premises infrastructure with Azure cloud services.

Azure Stack HCI solution

Connect remotely to Azure services

Windows Admin Center UI

Windows Server VMs | Linux server VMs | Azure Kubernetes Service

On-premises Hyper-V

Hyper-V | Storage Spaces Direct | Software-Defined Networking

Azure Stack HCI OS

Validated partner hardware

Mismo Systems Azure Stack HCI Service

Solution, Design & Implementation

- Capacity planning of the Azure Stack HCI solution
- Identifying the right Hardware and specifications from the list of validated hardware partners for Azure Stack HCI
- Designing the Azure Stack HCI solution
- Azure Stack HCI licensing
- Implementation of Azure Stack HCI solution

Managed Services

- Business Hours Remote Support
- 24x7x365 emergency support
- Regular Health & Performance Monitoring
- Capacity Planning & Cost optimization
- Change Management
- Break-fix Support
- Regular reporting and reviews
- Preventive maintenance
- Best practices evaluations & implementation
